Qualifications

- Able to code web pages from the ground up using HTML, CSS, Bootstrap, jQuery JavaScript and React. Along with the working proficiency of the Git Version Control, WordPress Content Management, Linux Command Line

- Fundamental understanding of mobile first design concepts, cross browser development,API implementation and search engine optimization (SEO)

- 2+years of customer service experience grant me the ability to communicate with clients and fellow developers to establish the necessary requirements to complete projects in a professional and timely manner

Skills

- HTML
- CSS
- Bootstrap
- jQuery
- SCSS
- JavaScript
- React
- Material UI
- Git
- Figma

Education

- Bechlor of Statistics at Meiktila University of Economics

RELEVENT CERTIFICATIONS

- Responsive Web Design (Free Code Camp)
- Algorithms and Data structures (Free Code Camp)
- Frontend Development Libaries(Free Code Camp)

Relevent Experience

- Designed and created client website from start to finish using current technologies and design trends while optimizing content for mobile and cross browser performance

- The Primary foucs of my studies in web development has been HTML,CSS and JavaScript. I've created multiple websites and I have also volunteered my time to gain professional level experience using these skills. I recently turned my faces to furthering my JavaScript skils by working more with vanilla JavaScript and learning ReactJs

- The Primary foucs of my studies in web development has been HTML,CSS and JavaScript. I've created multiple websites and I have also volunteered my time to gain professional level experience using these skills. I recently turned my faces to furthering my JavaScript skils by working more with vanilla JavaScript and learning ReactJs

- I possess knowledge in modern web design concept like mobile first design, cross browser compatibility, search engine optimization and page optimization

- I have a thorough understanding of Object Oriented Programming with JavaScript as well as JSON knowledge
